

Dear Sirs,

I am not a writer so I will make this very short.

With regard to truth in journalism, I have recently been stunned by the news coming out of Europe.

The immigration crises cause by the masses of "completely un-vetted and un-documented" Islamic aliens flooding into Europe.

I have been a whole-hearted supporter of Public Radio for the last 20 years and have listened to the BBC broadcast on this station, every night, for as long as I can remember.

Never once in this time have I heard of the, now critical, Islamic infiltration of our western civilization.

You, the public mainstream media, have been silent of the rape, murder and perversion of our Christian or humanitarian cultures.

You have reduced the public media, and all the professionals that I believed in, to nothing more than "just another tabloid for idiots", thank you.

This is an enormous crisis in Europe and now I learn that under the Obama administration we have the same growing crises in the United States.

Now I don't know who is really signing your pay checks but I can tell you that there are other ways to make a living. I would like to call on you to get this information into the hands of the public, who still believe in you, and I can guarantee that there will be no more division within the United States. Our youth, the feminist, and the LBG communities will all united when they understand what their future hold if this crisis is not avoided.

I have seen youth gang violence and I can tell you it is not pretty. This militia that is flooding into our welfare system is nothing more than a silent coup that will force our citizens into gated communities, in fear of what they can say or think and where they may venture.

For the last 10 years, you have done a great dis-service to your children and your children's children for generation to come. This is Vichy journalism at best, and your credibility is exactly 0...

The answer is not silence, and in this case silence is complicity and treason.

The answer is 18 USC 1462, 1465, 2251, 2386, 2383 etc.. and not the fairy tale you must be telling your children.

God bless America and God help Europe...

Regards...
